

## Perfect Lips...the Ethical Way.

Original citrus "Lip Food" is an exceptional lip treatment far richer than ordinary lip balm. What makes it so good is the finely balanced secret blend of vitamins, emollient wax, fruit oils combined with amazing unbleached and unrefined Shea from a women's fair trade co-operative in Ghana.

Allyson Proudfoot, owner of the Bellingham Soap Company says " The Shea butter we have just sourced is the best I've ever used, the quality is first class; smells like heaven, wonderfully creamy it feeds the skin with buttery goodness...I will be using it in all of my products from now on"

Allyson has chosen to buy her Shea through UK importer Akua Wood of "Sheabutter Cottage" a known and trusted company who have been helping local farmers, community projects and co-operatives in Ghana (and other countries) for nearly 10yrs.

Our lip food also contains fruit oil, unbleached and unrefined cocoa butter, organic beeswax and vitamin E.

It is supplied in a handy screw top aluminium tin, reasonably priced at £4 for 15ml it can be purchased through our website or at local stockists.

We do not use parabens in our products, all of our packaging is recycled or recyclable, we do not use plastics...even our sticky tape is biodegradable!

We are an accredited ethical company.

End---
