NATURED

Looking for new accessories this season consider retailers that are members of The British Fair Trade Association for Fair Trade Shops, www.fairtrade.org.uk. Members must adhere to fair trade guidelines, so you can rest assured that your purchases are made with ethical practices. AFTS member Myakka offers a range of mail-order and in-store items, all made with a warehouse of natural materials. Its stylish baskets are made with either teak or sheesham wood, fast-growing trees sourced from government-managed forests in India. Each piece is hand finished and hand waxed.
